Claims Allowed

Claims 1-27 are allowable over the prior art of record. The claims are allowable because the prior art does not anticipate nor render obvious the claimed combination of: a transmission comprising: at least one planetary gear set having first, second and third members; a clutch pack connected to one of said members; a rotatable housing member connected to another one of said members; a piston assembly supported on said rotatable housing member and rotatable therewith; said piston assembly including a thrust bearing operatively connected with an axially movable piston to receive an apply force from the piston, and a piston apply member positioned between said thrust bearing and said clutch pack for transmitting the apply force to the clutch pack; and wherein fluid for applying said piston is carried through a stationary support member, through said rotatable housing member, and into the piston assembly.

No particular single feature of the claim renders the claim as a whole patentable. Only the claim taken as a whole combination is deemed new and unobvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art Discussed

The examiner has considered the references cited by applicant in his Information Disclosure Statement filed February 23, 2004. None of the references show all of the features of the claimed invention.

The reference cited by the examiner is deemed pertinent to applicant's disclosure. Windish shows a planetary gearing wherein pistons 80 are located in a rotatable housing, but no thrust bearings are shown and the rotatable housing is not connected to one of the members of the planetary gearing.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dirk Wright whose telephone number is 571-272-7098. The examiner can normally be reached on Monday through Friday, 8AM-4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Marmor can be reached on 571-272-7095. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
